Review

The launch of **Call of Duty Mobile** for this type of device has been a phenomenon and has made it very quickly one of the most downloaded applications, achieving the title of the most successful game in years. It has the guarantee of its video games for other platforms, which means that many of its regular players have already given it the go-ahead and have their approval.

It has different game modes that will delight its followers. **Download Call of Duty Mobile for free**, it is compatible for **Android** and **iOS** devices. You will also find two different progression systems, but both will determine the rewards that will appear.

On the one hand you have the levels of the character himself, which you will go up with each game you play, and on the other there will be the level of the battle pass itself, which will grow as you manage to overcome a series of objectives that the game sets you. .

As your personal level rises, you will collect new equipment that will help you continue advancing in your mission and use them in games. Keep growing to get new weapons and ammunition and be the most equipped. For its part, the battle pass levels focus on multiplayer game modes and battle royale, in this way every time you get a new level you can claim rewards that will be of all kinds, but that will always be useful to you.

Participate in the challenges that are held periodically in **Call of Duty Mobile**, you will have the possibility of getting exclusive rewards that you can only get through these special events. One of the elements that characterize them are their multiple modalities. Among them it has the three modes most played by its users: multiplayer and battle royale, and especially the new zombies mode.

In Battle Royale mode you can play individually or with a squad, choosing whether you want to do it in the first or third person. In battles of up to 100 players you will have various elements with which to customize your character. Try this version made exclusively for mobile devices of **Call of Duty Mobile** and play wherever and whenever you want your favorite game.
