**Mario Kart** is a racing video game developed and published by Nintendo for the Wii U console. It is the eleventh installment of the Mario Kart series, eighth on Nintendo consoles. It was released worldwide at the end of May 2014, with 1.2 million copies sold in its first four days, making it the fastest selling Wii U game to date. On June 26, 2014, Nintendo recorded sales of 2 million copies in the first month of release. In April 2017, an improved port for the Nintendo Switch, called Mario Kart 8 Deluxe, was launched worldwide, which in June 2019, with more than 17 million sales, had become the best-selling game in the system.

As in the other Mario Kart games, players control the characters in the Mario franchise and participate in go-kart races on various circuits, using a variety of objects to hamper opponents or gain advantages. While incorporating the game mechanics that were used in previous Mario Kart games, Mario Kart 8 introduces anti-gravity sections that allow players to drive on walls or ceilings, as well as allowing them to collide with each other to give a little push. The game includes game modes for a player and multiplayer, even online through the Nintendo Network.

The novelties of the new version unlike the previous versions of the game are many as for example, in the previous version we had 32 circuits and, over time, you could win another 16 more through downloadable content, instead there are now 48 circuits available from the first minute and also includes new playable characters to add a total of 41 plus the Mii; There are new parts to customize the vehicles and something very important is the possibility of carrying up to two objects at the same time during the races; Something has also changed in battles, for example, you can become invisible by stealing objects, you can jump over rivals and obstacles with the pen, reach great speeds at 200cc and you will also have an extra mini-turbo that shows when we spend more time, with the intelligent steering wheel you will get off the track and many other exciting news that you will discover playing.
