Review

Now you can have fun with one of the great classics of board games from your mobile device, regardless of where you play or with whom. Little by little, more have chosen to switch to this online title, in which you can play some very fast and fun games. **Download Monopoly** and start plucking all your rivals to become the richest in the whole city.

At an accessible price, you can have all the advantages that this mobile game offers you on your phone, with its multiplayer games and the animations that are included in this app. Download Monopoly, you have it available for **Android** and **iOS** devices.

Everyone knows the basic rules of this classic, throughout history it has been one of the best-selling board games and one of the most common in each house. The main objective that you will have to pursue is to go through the city and buy all the streets you can, without going bankrupt, to build houses and hotels that will make you earn money every time one of the other players falls on them. All this while avoiding being broke or going to jail.

The game adaptation for mobile devices is not missing any details. One of the **advantages of Monopoly** is that you will find the same scenario as in the physical one. The board is the same and it is perfectly animated to make the experience even more pleasant, giving the impression that you are in a city of Sim City, varying with each of the themes you choose.

In addition, you have different game modes that will make each game different, in which you can customize to your liking, choosing all the characteristics you want, such as the duration of each of them, the rules, the different themes that you want to have in the city and even the location of the board. Among these, the **Monopoly game** includes the possibility of playing against the machine itself or doing it in online multiplayer games with people from all over the world.

✓ Pros

- You find the classic board game on your mobile.
- You can challenge friends or strangers.

✗ Cons

- Lots of publicity.
- There are features that cost money.
- In games with players from all over the world it does not load well.

- The details of the game are identical to the original.
- Minigames make games more entertaining.
- Lots of pop-up advertising.
