### Description

---

Piano Tiles is a game where the player's goal is to touch black tiles when they appear from the top of the screen, avoiding white tiles. When you touch each black tile, the sound will play the piano. In a short space of time he creates famous compositions and works. If a player touches a white tile, the player loses the game and this will be signaled by the off-tune note. Each defeated level unlocks the next with new songs. The song of the first level is Little Star. You can log in to your Facebook account to save game progress and share your gdzide data only on multiple devices.

**Arcade mode** The tiles on the screen move automatically and the player must keep up with the pace. The game lasts until one tile is omitted between them or a white tile is touched. It contains a wide range of variants, all of which are in a similar mode known as Arcade + Mode.

**Zen Mode** There is a specific time limit, and the player may try to push as many tiles as possible before the time runs out. As in the classic mode, the screen moves at the pace at which the black tiles are pressed.

**Rush mode** The screen scrolls automatically, just like in the arcade mode. The scrolling speed gradually increases, and the player is forced to tapping the tiles at a constantly growing rate. The player inevitably loses, at which point the game reveals how many tiles per second he was able to touch.

### Review

---

**Piano Tiles** is a game where the player's goal is to touch the black tiles as they appear at the top of the screen, avoiding white. When each black tile is touched, it will make a piano sound. In rapid succession, he will form famous compositions such as F à Elise and Hymn to Joy. Bluestone Alley, composed by Congfei Wei, is the song level of Piano Tiles 2, is the original composition of Piano Tiles 2, other songs of Congfei Wei are Aurora and Forest of Blocks. If the player touches a white chip, the player will lose the game and will be signaled by an out of tune note. Piano tiles 2 had a long touch of mosaics, double mosaics, fast mosaics and sliding mosaics, and uses one song per game, 3 new songs per level will be unlocked and your top level song is Little Star.

Keep in mind that you can download Piano Tiles Free for Android, iOS and PC

Modalities of the application:

Classic mode

There are a number of chips that the player must touch to win. The screen moves manually, at the

speed with which the tiles are touched. The player can try to touch these chips as quickly as possible. There is a challenge on the tiles of May 2, 2017 called classic game, they use the classic mode and the player's challenge playing as much as possible for 30 seconds.

#### Arcade mode

The chips on the screen move automatically and the player must keep up. The game lasts until a square is lost in the middle, or a white box is touched. It contains a wide range of variants, all of them in a similar mode known as Arcade mode. Piano tiles 2 only uses the arcade mode for songs with some long touches of mosaics, double mosaics, fast mosaics and sliding mosaics and yet, after 3 stars, the speed steadily increases as you win crowns and song loops.

#### Zen mode

There is a set time limit and the player can try to press as many boxes as possible before time runs out. As with the classic mode, the screen moves at the speed with which the black tiles are pressed.

#### Rush mode

The screen scrolls automatically, similar to arcade mode. The scrolling speed increases gradually and the player is forced to touch the chips at an increasing rate. The player inevitably loses, at which point the game reveals how many chips he could play. Piano Tiles 2 is mainly based on Rush mode, with different songs.

#### Relay mode

Similar to Zen mode, but the time limit can be reset by touching the tiles. If the player cannot touch fifty chips before time runs out, the game ends. The screen moves to the player's rhythm in the same way as in classic and zen modes.

### ✓ Pros

---

- Easy game, quickly learn how to play
- A constantly updated list of songs
- More challenges

### ✗ Cons

---

- A lot of ads
- Sometimes there are lags
- There may be problems logging in to Facebook

### Tips

---

1. Do not click on the white keys!
2. Click only the black ones to the rhythm of the music
3. Focus and play!
