If you are an Amazon customer, you will already know all the advantages you have when purchasing products from the e-commerce giant, but there are many more services they offer and that you may be missing. Among them is **Amazon Prime Now**, a service with which you will have all the advantages of your paying customers and that is perfect for those orders that you need urgently.

Do not confuse it with Amazon Prime, and being a customer of this service does not mean that you belong to the other, since they are not the same. Amazon Prime Now is a specific mobile application to buy mainly food, cleaning and hygiene supplies, although it also has other products to a lesser extent.

It was launched in 2016 and in less than a year it has become one of the most sought after applications, being an essential tool to reconcile family and professional life. **Download Amazon Prime Now free**, you find it available for **Android** and **iOS** devices.

One of its main advantages is the delivery of the orders at home within a maximum period of two hours from the moment you have placed it and with a time slot that goes from 8:00 a.m. to 00:00 during the seven days of week. This makes your life much easier, because at any time you can make a purchase from your mobile phone and have the peace of mind that you will get home as soon as possible.

Its application has an interface very similar to that used by the others of the company, with a very simple and clear design, you can quickly find everything you are looking for. Its search operation is the same as in Amazon, you put in the search engine what you want and the results will appear from the different places where you can buy them. You just have to select one and add to your cart.

Do not worry because there are products from different supermarkets, in the end, when you have finished making all the purchase, in your basket will appear the summary of all the articles grouped according to the stores and you can now manage it as two separate purchases, but with peace of mind that it will arrive at once.

At all times you have the prices of the same items and you can compare them at all times, even the same price of the same basket in different stores. The minimum charge is € 40 and shipping

will be totally free, because to be able to use Amazon Prime Now you have to be a member of Amazon Prime, you can also place as many orders in the same day as many times as you want, as long as they meet the minimum.

The main feature of this application is that you will buy while saving, because you will see the prices and choose the one that best suits you. The supermarkets that operate in the application are well known and you will also have your own Amazon brand, which is usually the one that always has the lowest cost.

If you are not going to be at home, you can always add other addresses from the app itself or even choose to have it left at the door, as long as you have not ordered something that requires refrigeration. In any case, follow your order through a map and you can even contact the person in charge of delivering it by phone.

Not only can you use it as a supermarket, you will also have the possibility of acquiring other types of products that you need urgently. Buy anything you need urgently without leaving home and through your mobile phone. As in Amazon, in each one you will find the rating and comments left by other users who have purchased it before, so this will also help you decide on one or the other.

Download Amazon Prime Now, an ideal tool for last minute purchases that has stood up to the large conventional supermarkets. There are many who have seen the opportunity and have started their alliance with the giant, putting their own staff and products exclusively dedicated to the platform at their disposal.

The main objective of Amazon Prime Now is to reinvent the way its customers buy and find a solution that suits them, not being restricted to physical times or places. With this application you will be able to buy when you want and where you want, without having to travel or make endless queues, offering all its users endless possibilities and advantages.
