Description

Be creative inventive, giving Sims a unique look and unique personality traits, and a liveliness by choosing outfits and hairstyles. Easily build a dream home for your Sims and design the perfect interior and decor in a mobile game of unprecedented detail. Experience moving and funny moments with your Sims: achieve your career goals, develop your hobby, strengthen relationships and improve your quality of life. Party with friends, socialize in the city, take part in events and distribute stickers to your favorite Sims. What stories will you tell? CREATE NICE SIMS Personalize the look of your Sims with hairstyles, costumes, makeup and accessories. From the top of the head to the tip of the toes - the possibilities are endless! Also, make an extraordinary wardrobe using Izzy Fabulous's boutique. Choose for your Sims features such as "Active" or "Musical", and then develop their personality with the increase of their life experience. BUILD A PERFECT HOME Design houses in which your Sims will experience all the charms of life. Easily personalize the layout and appearance of homes, choosing from a wide range of furniture, appliances, decorations and even themed collections. Then take the Sims to great places such as fashion studios, restaurants and night clubs. SHAPE SIM LIFE STYLE Steer your Sims' stories - influence their careers, hobbies, relationships and family life. Choose an exciting career path, such as a fashion designer or doctor, and exciting hobby such as cooking or playing the guitar. Make friendly or romantic relationships with other Sims and take risks by trying to steal a kiss or develop an innovative recipe. Start a family and set the trail for the next generations, handing over unique souvenirs. PLAY WITH OTHER PLAYERS Organize events and choose your Sims for parties to others to socialize and win prizes. Praise your home, make love, and even decide to move Sims to other players. Join everyday events such as "Quick Dating in the Park" or "

Review

The Sims is an incredible game that goes back 19 years, is one of the best-selling PC games of all time, you can play with them on PC, Playstation, Xbox and mobile applications.

You may be able to design the house of your dreams, create an ideal family and a perfect professionalism - basically taking unlimited control of everything. The game is made up of countless details.

You can choose between The Sims, Sims 2, Sims 3 and The Sims 4. If you want to be part of this virtual adventure, you can buy the expansion packs of the game, such as - World Adventures, Pets, Seasons, Get Famous, Get to Work, Island Living and many others. If you buy the latest version of the game, you can take new game advance and packages of things like parenting, vampires, Spa Day or fancy party stuff, little kid stuff, even Moschino stuff.

Probably creating your own sim is the most important part of the game, you will be responsible for everything, including him, like appearance, clothes, personal traits. Sims represent real life in a virtual way, including emotions, professional and personal development, wealth, fame, love, even death.

Another important element is that you can decorate your own home, you have absolute freedom to create and design everything you want.

I think the reason The Sims is so successful is because it shows the real aspects of life and the relationships between people, at the same time that you can control and experience the life of your sims.

The negative aspect is that you can become an addict very quickly, the game is to explore different sims, create a world where they live, at the same time you have the ability to control everything and have the enormous desire to wait for what happens the next day, how your sim will develop in their work, relationship, raise your children, grow old. Basically, most of the needs that sims have are a true representation of the players

✓ Pros

- Emotions and their consequences.
- New animations.
- Combining interaction.
- Improved interface.
- A more intuitive wizard and compilation mode.

✗ Cons

- League for a long time.
- You cannot move things when someone uses them.
- Overwhelming lack of obvious and basic facilities and options.
- There are not many small children in the game options.

Tips

1. you do not have to worry about the sim needs
2. You do not have to spend a whole day meeting Sims' needs
