Description

The story-based mode that was introduced in FIFA 17 returns in this installment and continues for the last installment under the title " The Journey: Champions ". In this installment, Alex Hunter signs for Real Madrid and tries to become their star player after Cristiano Ronaldo leaves for Italian giants Juventus . As FIFA 19 has the full Champions League licence , Hunter also competes for Champions League glory. Danny Williams returns trying to carve out a name for himself and compete for the Champions League hardware. Alex Hunter's half-sister , Kim Hunter , tries to compete for the 2019 FIFA Women's World Cup. The game mode features guest stars such as Kevin De Bruyne , Neymar Jr , Paulo Dybala , and Alex Morgan . Gareth Walker and Dino , who previously appeared in FIFA 17 and FIFA 18, don't appear in the storyline for unknown reasons, though Walker does send the characters a few abusive tweets during the story. The game also introduces other fictional new characters whose names include Beatriz "Bea" Villanova, who is Alex Hunter's new agent, Danny Williams' estranged brother and Paris Saint-Germain F.C. defender Terry, USWNT coach Marriane de Silva, Real Madrid C.F. coach Bartholomew Cazares, Danny Williams friend Ringo, and Melanie Trembley, a player of the Canada women's national soccer team who serves as Kim Hunter's rival in her story .

Review

Fifa 19 is an incredible game, that became popular to all over the world. The smallest ones to elder people play Fifa with great pleasure. It is a football stimulation video game, developed by Electronic Arts Fifa series. Fifa 19 is available for PlayStation 3, 4, Xbox 360, Xbox One, Microsoft Windows.

Critics said that Fifa 19 matches a more natural or move varied in the way. They introduced a slower pace and fee for 18, everything is in balance and it is not overpowered. The ball imitates exactly the real one. If you buy the game, you will see, that Fifa 19 includes new tactical options, like defensive and attacking technique. The strength but is becoming a far more important, also you can see the emotions of the players, who are battling the ball and the goalkeeper actions.

The Champion League and Europa League licences are more than amazing. The commentators and authentic atmosphere adding to the feel of being with your favoured football team during the biggest event competition is unbelievable. The licence is so realistic. Music and the graphics

overlays are perfect. All the circumstances of the competition are presented correctly. The details that are used are amazing and you will be surprised, for sure, how full of content can be this game and how accurate every match is. Huge surprise was the new 16 stadiums, which represent the atmosphere in perfect way. Each of them make you feel the enjoyable experience, created to be as real as possible. The players look better with numberless of details included.

Basically the aim that Fifa has is based in two things. First is to be fun for all the players and the second one is the ability play with your favourite teams one of the most beautiful games ever. The huge advantage is the ability to play with our favourite player, especially when you are a football fan. Also, you can play with your friends and represent the football matches in the virtual world. Probably the success of Fifa 19 come because of the advantages, that you can have, comparing with the previous version. If you want to have maximum level of realism and entertainment, you should buy Fifa 19.

✓ Pros

- Great on-the-field action.
- Emotional moments in story.
