Get exclusive discounts and unique benefits using the **Clube Extra** application. It belongs to the line of supermarkets of the same name, a retail chain created in Brazil in 1989, when it replaced Jumbo.

Today it has more than 80 stores spread over 12 states, being a sales leader, becoming one of the favorite supermarkets in the country. It also has its own online store, helping millions of people make daily purchases who do not have the opportunity to have one nearby. To reward all its customers, the brand has released the Clube Extra application, where you will find many products with discounted prices and personalized offers.

Download the Clube Extra application for free, you can find it in the main online stores, **Google Play Store** and **App Store**, and from the company's own website. With a very intuitive interface, you will quickly find all the products you are looking for, and all you have to do is add them to your shopping cart.

It has monthly challenges with which you will get extra points that you can exchange at the end of the month for new rewards, which will be added to the ones you already have and that you can use whenever you want, without any limitation. You will also have the possibility of winning exclusive prizes for being the best buyer of the month.

With the Clube Extra application you can make your own shopping lists, so you always have your favorite items on hand. It's that easy to buy, you enter this list if you already have it added here and just choose them, without having to look for it in the online catalog.

To create an account you will only have to register in Clube Extra, you will not need an invitation and anyone can do it. This record will automatically make you participate in all its benefits, without having to wait for verification or anything else.

To register you will only have to install the application on your device and open it, the first time you do it you will have to choose the option to Register, enter your CPF, your surname, if you have

an invitation code and press continue, it's that easy. Once you have done this, a screen will appear in which you will be adding all your personal data, a phone number and an email address and password. You will have to put your postal code, so that your offers are more personalized depending on the supermarket in your area. To confirm that it is you, they will send you an SMS to confirm the number and thus be able to complete the registration with a code that will appear in the message. And that would be it, you are already a member of the club and you can enjoy all its benefits.

Clube Extra has different forms of payment, being able to choose the one that best suits you, among the valid ones you will find the use of a credit card, the issuance of a bank receipt to pay in installment, for this option you will have to prove that you have at least one year of commercial activity and delivery area in São Paulo, Rio de Janeiro and Brasília. Other options are with Extra Delivery of brand checks, Multichecke and Multicash Grupo, and food coupons, only accepted in the areas of São Paulo, Rio de Janeiro and the Federal District.

You can choose any of them and if at any time you want to change it, you will only have to enter your account, click on your order and select the payment method. With this reschedule your purchase and you can make the payment in another way.

From the app itself you will be able to follow how your order is, once you place it, it will automatically send you a message so that you can see its status and will inform you of any changes that may occur, in case there is no product that you have indicated, the platform will ask you if you want to change it for an alternative or remove it from the list.
