Haven't you played with this cute conteston kitten yet? **My Talking Tom** has returned with a fun application in which you will have to care for and grow this little virtual pet, all this while having fun with its entertaining mini-games.

We already knew this famous cat from other mobile games in the Talking Tom and Friends franchise, but now is the time to take care of your own virtual pet in true Tamagotchi style. It is a much more interactive game than the previous ones and uses a mechanic already known to all, being very successful among young audiences.

This game transforms Tom into a virtual pet that you will have to take care of and play, so that he grows happy and increasingly united with you. But this is not the only thing that this cat does, it will remain true to its characteristics and answers everything it hears in the form of derision.

**Download My Talking Tom for free**, you find it available for **Android** and **iOS** devices.

It is a game in which you will have to be aware of this cat as if it were one from real life. As you take better care of him and you are more aware of him, Tom will grow, so you have to be very aware of his indicators to know what he needs at all times. It will not always require the same, sometimes it can be food, another a bath, play, etc. With a very careful visual aspect, one of the **advantages of My Talking Tom** resides in its animations and the customization it has on pets, which you will unlock as you level up and the cat gets bigger and bigger.

The way to play is very simple, you just have to focus on the needs of the cat, which will indicate them in some indicators at the bottom, and prevent the percentage from falling. Once you click on any of them, you will access the part of the house where you can solve your problem. All the activities you do will have a reward, which will help the little cat's development and which will be used to unlock customization items. It is a reinvention of the usual mechanics of virtual pet games, which will entertain the little ones in the house, and the older ones.
