

## PK XD

A very entertaining, safe and original game for children

By PlayKids Inc

**5.0/10**

android

ios

### Review

---

One of the great challenges of the games available today is to be safe environments and communities for the little ones. Although it is important to note that the best that children can do are outdoor activities, we well know that many are those who take advantage of the large **number of free games** and apps that circulate in digital stores on both Android and iOS.

One of the alternatives with the highest number of downloads and popularity is **PK XD**. The game can be **downloaded for free** and was developed by the company PlayKids Inc. The firm has other interesting proposals in the catalogs of virtual stores such as: PlayKids and Crafty Lands.

**Playing PK XD** is getting into one of the most fashionable styles of the game today and a proposal chosen by a large part of the gaming community regardless of age. The installment is an open world proposition with elements from role-playing games. That is, you can interact with the environment and expand your home, get together with friends within the game, get objects and raise a pet. One of the funniest things is collecting and enjoying the variety of animals that are available such as alligators, raccoons or hippos.

To advance in the world of PK XD and get content for your character you must participate and complete fun mini-games. But the reality is that everything is possible in this universe. You can go around doing really what you want. Whether dancing, eating ice cream or delivering a pizza, all the activities are available in this title for you to put together your own experience.

When **creating a character in PK XD**, pay special attention as you will have many choices available. There is a great diversity of objects for you to make an original avatar and make it stand out from the rest.

Find different ways to express yourself in PK XD. It is a great alternative for smaller players who are just starting out in the world of video games. Although it is a safe platform, it is always good for an adult to accompany the youngest to avoid unpleasant surprises.

#### ✓ Pros

---

- Has many character customization options.

#### ✗ Cons

---

- Everything has a virtual cost.

- They always add new activities so you don't get bored.
- The challenges are easy and fun.
- You can play with friends.
- Sometimes the challenges become repetitive.
- It is difficult to find your friends in the game.
- It doesn't work without internet.
