Description

Download Ringer Zedge (Android) Select ringtones from the menu list. Again, you can view the described ringtones or click Discover tab to browse by category. Let's click Discover. In this example, let's click Country. You'll see a list of ringtones for country music that you want to scroll. To preview from this screen, click the Play icon button (the triangle in the center of the circle). Zedge will load and run the preview. If you like the ringtone, but want to continue browsing, you can click the Heart icon icon to add it to your favorites. To download right away, click on the song title to open the song's screen. You can also listen to the ringtone on this screen. If you are ready to download, click the white Circle using the download icon. You will get the following options: Set alarm tone, set notification, set contact ringtone, and set ringtone. Click the option you want to use, and Zedge will download the ringtone and set it automatically for the selected option. Again, if you want to download it for later use, click the three vertical dots in the top right corner and click Download. Zedge will download the ringtone to the Sound folder for later use. Getting the Zedge ringtone (iPhone) We run the program We select the ringtone we are interested in and tap on the share icon and then on the Get Ringtone. You will see a message about the need to sync the ringtone, we accept it. We go to Settings sounds and select the downloaded ringtone.

Review

The **Zedge application** provides an unparalleled level of customization, offering very diverse screen backgrounds, ringtones, games, phone widgets and keyboards that will delight all its users, turning your mobile into something very personal. It has become very relevant in recent times, creating a very active community where you will always find what you are looking for and solving all the doubts that may arise.

Its main objective is to personalize any mobile device in the best way, totally changing the look of your phone. It works for both main and secondary screens, such as lock screens and some other apps. **Download Zedge for free**, you find it compatible with **Android** and **iOS** operating systems.

With a very clear interface, it works very simply so that every time you enter it you will see the most outstanding funds of the moment, updating periodically, and that learning to use it will be very easy and fast. If the ones that are presented to you in this first sample are not what you

wanted, it also has a search engine in which entering the keywords will show you all the results. Its content is divided into categories, both theme and color, so finding something specific is very fast.

The **free app** is divided into three main sections: wallpapers, ringtones, and sounds for notifications. In each of them you will see its own results, all different and always matching what you are looking for. In addition to using them, you can also edit them to better suit what you need.

Create your own favorites list and save the files in your own cloud, to use them later and retrieve them for use whenever you want. You can also download the best games directly from the application, finding the most successful content of the moment. With more than 7 million active users around the world, it has become one of the most used apps in the world, it is its own users who continue to feed content so that it never stops updating, making it the largest of the whole market.

✓ Pros

- Clear interface improves uptime.
- The products are grouped by category.
- We can save your favorite wallpapers, ringtones, etc.
- You can upload files.

✗ Cons

- To have access to the ringtones, you must buy Zedge Premium.
- You have to wait for comments if you upload files and want to earn money.
- 30 second audio file is not so good.
- They have some "harmful" problematic issues in the past.

Tips

1. In-app products are grouped by category. Among the available groups we will find music, sports, landscape, Valentine's Day, mother's days and many others, -The app offers many options for sharing content, so we can share your favorite products with other apps and with people -All wallpapers offered in the app are perfectly matched to your device. We can set them up quickly from within the app
