Description

It turns out to be a very useful tool because it teaches you the comments of other users as well as the score and prices. The Booking application is free, and is available for Android, iOS and Windows Phone devices. Some of its best features are: hotel search in the current location and on a map, user area with reservation management and personal data for fast use (payment card, name of the main guest, etc), filters, various options of sorting, list of favorites, download of travel guides, mobile notifications, etc. For any questions, Booking has a customer service phone 24 hours a day 365 days a year if you have any questions or problems You have the option of free cancellation which gives you the possibility to change your mind when you have not decided the exact date of return or if you decide to stay a few more days in the charming little town or city that you have met on the way you should simply dial in the filters the cancellation option if cost. Depending on the establishment in which you stay, you have freedom and security if you do not trust electronic payments too much and prefer to pay in person since you can do it at the time of arrival. If at the time you are looking for accommodation you do not decide or for some reason you will make the reservation at another time you can ask booking to send you alerts of the best deals to the destination you are dreaming of.

✓ Pros

- Utility and usability because booking through this application is super simple and fast
- Friendly for the user since they specify absolutely everything as well as the rules and suggestions in a clear way and at a glance.
- No management fees as there is the option of free cancellation. It does not take away a penny for using your page.
- Accumulation of miles, book a hotel and separately accumulate miles for future hiring with booking and get discounts

✗ Cons

- It may take a few seconds to manage a search with a large number of results
- Without financing, while local agencies allow us to take out in installments, with or without interest, Booking is all one, either at the hotel or when booking.
- You can only solve problems from the phone, which is not so easy
- Be very careful with the type of contract with which you agree
- It is difficult to delete your account
- There are cases in which you cannot change your debit card information

Tips

1. What could be considered as a trick or how to use the application
2. You can join the Booking Genius loyalty program if you have booked at least 5 accommodations from the same account and get advantages such as 10% discount, late departure from the room, free parking, etc.
3. Discount for friends, you must invite a friend and when you make the reservation with your account of at least 30 Euros, we will both receive a 10% refund
4. New free accommodations are those that have not yet received any opinion and make them cheaper in order to start receiving clients and comments, we mark in the filter the option without scoring and free cancellation in Booking. We choose 5 to 10 accommodations in which we are interested, we look for your email or we contact them directly asking if it would be possible to get a discount on the rate in exchange for a good review of the hotel. Although

many times they do not respond or say that it is not a good option to get discounts or accommodation
